He enjoys reading the book more than actually getting the collectibles now because he has no space!0 of 0 people found the following review helpful. Excellent research book for the new collectorBy Mark HernandezThis is an excellent research book for the beginning collector of anything....."Dick Tracy".From toys,comics,dolls, guns,paper items,ect.,ect. from the vast personal collection of Mr. Larry Doucet.Whom I would say probably has the ultimate Tracy collection in the known universe.Also great information on Chester Goulds crime fighting cartoon detective, the man himself..."Dick Tracy" by the co-author of the book Mr.Crouch0 of 0 people found the following review helpful. This book is the Dick Tracy bibleBy P. RoncalloNice book for the Dick Tracy collector, How anyone who collects Dick Tracy could do without this book is beyond me.

From School Library JournalYA-- The 1990 movie starring Warren Beatty and Madonna will engender a passing interest in this book, as will the return of the daily comic strip to many major newspapers. However, a perusal of the price guide and chapter five, "Today's New Products--Tomorrow's Collectibles," will whet the appetite of this generation's young-adult yuppie population. A book that should be in all young-adult collections for two reasons--a

part of America's rich culture is revealed and Doucet's careful supportive documentation gives collectors a guide from the 1930s to the present day. --Mike Printz, Topeka West High School, KS
