If you need to ID something then you can't find it by browsing pictures; and if it is NRFB/MIB then you really have no need for this book because you already know what you have and... The value guide -- really means nothing (even in the updated versions) because in today's market "ended listings" in ebay dictate prices - which change from week to week... and fluctuate significantly between late spring/summer and christmas holiday...7 of 8 people

And I'm assuming when the third edition comes out, it'll cover the few things missed here. The values are as accurate as any other price guide (i.e. to be taken with a grain of salt), but the best part is having such a completely comprehensive list of not only dolls, but also fashions, accessories, licensed items, even pogs and postcards!6 of 7 people found the following review helpful. Excellent resource book - a must have for collectorsBy starride@cmix.comThis is THE one book you MUST have if you collect in the broad Barbie doll family. They are few photos, but there is the most comprehensive listing of every Barbie Friends you could ever find. When I'm bidding in auctions, this is the book I look to for the REAL value of the item. Get it...or you could overpay on your Barbie items. Highly recommended!!

"The Barbie Doll Years, 1959-1996" is a comprehensive of all Mattel Barbie products--a must for all collectors and dealers. In addition to Barbie and her family, the book contains information on the cases, furniture, houses, paper dolls, children's clothes, jewelry, and games. Nearly 100 full-color photos.
