Ann Hazelwood : The Basement Quilt: Introducing the Colebridge Community before purchasing it in order to gage whether or not it would be worth my time, and all praised The Basement Quilt: Introducing the Colebridge Community:

5 of 5 people found the following review helpful. Don't bother By S. C.I was initially intrigued by the story idea, but

unfortunately found only incredibly bad writing and character development. I even gave the second book a try, but it was no better. The dialogue is awful - people don't talk this way in real life. The author attempts to portray the main character as strong and independent, but she comes across as weak, clingy and pathetic. Some time lines don't match up, and the other supporting characters are uninteresting. Don't waste your time.0 of 0 people found the following review helpful. Quilts and Ghosts - what a fun readBy Kindle CustomerTempleton galWhat a fun series for summer reading, especially if you love quilts or love to quilt. Read the first one and got hooked - two weeks later I'm about done with the third one.4 of 4 people found the following review helpful. unbelievably badBy Johnny 6I give this zero stars. It only shows one star because I had to select one to post this review. The writer strung together every cliché she ever thought clever, then used it again, and again, and again. Rarely encounter a book I can't finish, but this is one. Don't waste your money.
