**Mary Edsey : The Best Christmas Decorations in Chicagoland** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Best Christmas Decorations in Chicagoland:

We love our decorations, and in some parts of the city, we go all out, turning our homes into little "winter wonderlands" for our own pleasure and that of our friends, neighbors, and often carloads of strangers who cruise the more decorated neighborhoods. That's why I snarfed up this book as soon as I knew it existed, and for the most part, I wasn't disappointed. Edsey covers a lot of the best areas for decorations, gives some historical background, and displays a real love for her subject, which strikes a responsive chord in me. However, I was disappointed in the photography which was a bit fuzzy and rather darker than I would have liked. Now, granted, all this has to be shot in the dark for maximum effect, but holiday magazines manage to make their photographs crisp and clear, with little loss of architectural detail. And I know it's not about the architecture, but that always will inform the way the decorations appear to onlookers. To lose those details is to lose

some of what makes the lights and decorations so appealing. However, nothing else like this exists, and I have to give high marks to this volume if only on that count. It's way better than nothing! So if you're a Christmas junkie and a Chicago lover, then by all means, buy this book, and enjoy. 0 of 0 people found the following review helpful. 5 star book for years to enjoy. By Mary Nunaley If you grew up in Chicago during the 60's (or earlier), this is a great walk down Memory Lane. I remember eagerly waiting our annual excursions to Candy Cane Lane and other neighborhoods. The stories and photos bring those simpler times back to life.
