Tons of great ideas!By QuiltmamaI would give this book a 5 star review except for the fact that it has WAY too much Halloween crafts and I'm not a huge Halloween person. If you get into that holiday though, this book would be a 5 star book for you. The rest of the projects are awesome. I've already used it for inspiration several times in my cardmaking. Well worth the money.2 of 2 people found the following review helpful. Damaged, But GoodBy CeciliaThis would have been a 5 star except the book bind is coming undone. I

just opened this package late last night, and as I was looking through the pages, I noticed that there was some separation from the binding. I would return, but its too much of a hassle. I usually am so happy with 's books, but this time it's a disappointment. I've purchased about 7 crafting books, a ton of decorating and organizing books, and recipe books. Though this craft book contains so many cute ideas, the binding was the only disappointment.0 of 0 people found the following review helpful.
