This is one of the best books on embossed medicine bottles there isBy BibliophileThis is one of the best books on embossed medicine bottles there is. Not fancy and rather pricey but if your are interested in more than just the bottle as a collector item then this book delivers.25 of 26 people found the following review helpful. Fantastic and Scientific approach to antique medicine bottleBy A CustomerThis book is beyond belief. It is authoritative and accurate to the extreame. It includes histories of the main medicine companies of the nineteenth century, bottle and medicine histories, in-depth classification and description of each bottle and its variants (color, height, shape, neck type, embossing, etc.), and clear pictures or helpful drawings of the specimen. A definite must-have for the serious collector and hobbyist. Hats-off to Mr. Fike.
