I thought this was a pattern book and was disappointed to find it was just a way to discover ...By NatashaFor some reason I thought this was a pattern book and was disappointed to find it was just a way to discover doll artists, supplies and patterns but there were none in the book that were nice. It is obviously out of date as well. It was interesting as a historical resource5 of 5 people found the following review helpful. DisappointingBy SharonThis book was current in the mid 80's but much of the information and sources are long gone. Don't bother.0 of 0 people found the following review helpful. Five StarsBy amelia scrivenI am a custom bear and rabbit stuffed animal sewer. The cloth source book is very helpful. Thanks.

Book by Dee, Anne Patterson

From Library JournalDollmakers and doll lovers will enjoy this book, which lists information from more than 300

designers of cloth dolls and animals. Chapters are divided into doll and animal patterns and kits, accessories, supplies, publications, and for people with no time or ability to sew handmade dolls and animals that can be purchased readymade. The information provided by each company includes its address, cost of its catalog, and names of the dolls/animals it designs. Accompanying descriptions range from inadequate to highly informative, the latter generally with photographs or line drawings of the product. Scattered throughout are marketing tips for those who want to get started in the mail order business; the value of these tips varies considerably. Recommended for public libraries. Joanne K. Hammond, Pennsylvania State Univ. Lib., Mont Alto Copyright 1986 Reed Business Information, Inc.
