I picked up this book because it looks like the only one I'll need. It takes you from candle-making (rolled, dipped or moulded) to candle decorating and when you're done with that, you learn to make your own candlesticks, candelabras, pots, holders, lanterns, sconces, and chandeliers. When you're done with THAT, you can create stunning displays based on color or season, decorating your home or for entertaining. Every single page has full color photos of the steps of the project and the finished project. You can simply browse the book

as an art book - it's lovely. I love the folk art carving project and gold-leafing project. Bravo for a great craft book. 11 of 12 people found the following review helpful.
