Wendy Smedley : The Complete Idiot's Guide to Scrapbooking before purchasing it in order to gage whether or not it would be worth my time, and all praised The Complete Idiot's Guide to Scrapbooking:

34 of 35 people found the following review helpful. Well worth the moneyBy V. HartmanI'm only a few chapters into this book and I've already learned more about scrapbooking than I learned in any five other books. This book covers everything from basic supplies -- including how to select safe archival products -- to layout ideas. It doesn't assume you know anything about scrapbooking, which might be annoying to someone who is VERY experienced, but for the rest of us it's perfect. I'm sure this book will be my scrapbooking bible. The only thing I wish it had more of is color photos/graphics, but you don't really need them to get the points presented in this easy-to-read, informative book.0 of 0 people found the following review helpful. ScrapbookingBy Deborah JamesWay to much history. Some of the stuff in the book is not practical for the beginner. I am disappointed in the book0 of 0 people found the following review

helpful. Five StarsBy BEACH LOVERReally helpful book on all levels.
