Alison Lindsay : The Complete Practical Guide to Scrapbooking before purchasing it in order to gage whether or not it would be worth my time, and all praised The Complete Practical Guide to Scrapbooking:

0 of 0 people found the following review helpful. Excellent for Beginner to Advanced ScrapperBy Theodora M. JohnsonScrapbooking one of my newest passions. Often see books in public libraries and go directly to to order. This book is best varietal book on subject. Ideas, illustrations, materials/supplies needed, where to buy supplies. Also shows seasonable projects. Recommend for beginner to advanced "scrapper." When ordering be sure you are ordering the book W/O the kit if you will purchase or have your own supplies. Book with kit is good for beginner who doesn't want to shop.0 of 0 people found the following review helpful. An older but good referenceBy JanieI borrowed this book from our library. It had lots of good information and techniques so I checked in to purchasing it. I was amazed that I

could get it so cheap. It is older so it doesn't have the newest trends, but I'm not all that into the latest and greatest. This has some really cool ideas. I was happy to add it to my reference books. 0 of 0 people found the following review helpful. Three Stars By Chippermomof3 Nice book!

Easy projects use simple but effective methods and materials that are ready to hand, plus more advanced ideas stretch the crafter with more skill and experience.

About the Author Contributing editor Alison Lindsay has been scrapbooking ever since she realised it was a hobby that allowed her to combine a lifetime of photographs with the crafts she loves. She especially enjoys scrapbooking holiday and heritage photographs. Alison is currently special projects coordinator on a leading scrapbook magazine, Scrapbook Craft. As well as writing many magazine features on the subject, Alison gives regular talks and demonstrations at craft fairs and hobby groups across the U.K.
