Handy book for creative ideasBy Book LoverThis book is not a daily devotion for crafters. It covers every day in the year with different ideas of things to make and to use to make different crafts. I was a little disappointed because a lot of the ideas were foreign to me and I did not think I could use them. Then I started

reading each day and found something useful from every page. It is a hand book to have for ideas and creations. 0 of 0 people found the following review helpful. InspirationalBy Tenn LPI think this book is worthy of its title. I was inspired on day one and have already started an altered book on spirituality. It is easy, enjoyable reading; and I enjoy reading the tip of the day. Even though I am not a professional crafter, I do enjoy crafting and enjoy reading craft books of all kinds. I am happy with the book and am glad I bought it. If I was inspired on day one, who knows what other inspirational ideas I will find.

There is something elemental shared among artists and crafters, regardless of chosen medium: creative energy. Crafters dabble, collaborate, muse, and make, all in their own way and on their own timeline. For all crafts, there are established techniques to follow but wild, innumerable ways to experiment, using the basics to launch crafters to new heights. Crafters Devotional can aid that launch. Each day of the year is given its own focus, on which the reader will find a daily dose of craft content that inspires, instructs, and illuminates.
