1 of 1 people found the following review helpful. DelightfulBy Gae DavisGreat deal on a really nice book. Not an instruction book, but very inspiring. Shows a house that has been furnished over the years and shows its age and charm, rather than a neat kit look.

A delightful adventure in the world of the miniature, The Doll House is bound to be a collector's item for those appreciative of fine-tuned craftsmanship combined with literary wit and nostalgia. Illustrated with dozens of full-color photographs, The Doll House text is a celebration of home with words by the poets and writers of the Hamptons. It is also a documentary in exact, one-inch-to-one-foot scale of a nineteenth-century English country estate whose genteel occupants appear to be devoted to art and literature. Among the fourteen rooms is an artist's loft, a writer's den, and an Egyptian dining room. The house, two years in the making, includes over seventy-five original works of art contributed by Hamptons artists and hundreds of unique furnishings from local artisans. Miniaturists and collectors of

all ages will delight in this bountiful world of fun and fantasy. The Doll House is a creation uniting many gifted contributors including Joe Pintauro, Lou Ann Walker, Philip Appleman, Eric Kraft, William King, Priscilla Bowden, Ian Hornak, and more. 53 full-color photographs
