Catharine Slade : The Encyclopedia of Illustration Techniques: A Step-By-Step Visual Directory of Illustration Techniques Inspirational Gallery of Finished Art Works before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Encyclopedia of Illustration Techniques: A Step-By-Step Visual Directory of Illustration Techniques Inspirational Gallery of Finished Art Works:

0 of 0 people found the following review helpful. A must have book. By Holly Christian A beautiful book that is a must have for any artist
1 of 1 people found the following review helpful. Five Stars By Lilyrose Great book - especially for beginner
7 of 8 people found the following review helpful. Great reference book for illustrators By R. Meireles So I got this book a while back. It was a recommended book from my illustration teacher. I must say it's a great little book full of great references. It goes in good detail of all the techniques available in good ole' illustration. This is NOT anything to do with digital illustration. It's about the real craft of real illustration. Hands on stuff.

Illustrated with hundreds of color photographs, here's an A to Z directory of a variety of media and techniques for

using them. Learn about line and wash, monoprint, resist, paperboard, markers, gouache, computer illustration, enlarging and airbrushing. 200+ full-color photos.
