Great!By A CustomerWe have this book and the pipe cleaner book. Both are great. My 5 year old son loves to make all sorts of silly things. With a glue stick and the book of examples, it keeps him occupied and actually sitting still for an hour at a time.I recommend it as a great alternative to just coloring.12 of 13 people found the following review helpful. A 1998 toy of the year winner in Parenting mag - Nov issue.By A CustomerFor 5 to 8 year olds. From a tic-tac-toe board to a dinosaur, there is no limit to the whimsical creations you can make with the vivid foam pieces.

An artistic medium so simple, bold and creative, it's instantly accessible to any artist over the age of three. Bound into the book itself are some additional larger pieces of foam to cut as you please. All you need to bring are scissors, a glue stick and you imagination.
