Maureen Foster : The Flower Arranger's Encyclopedia of Preserving and Drying: Flowers, Foliage, Seedheads, Grasses, Cones, Lichens, Ferns, Fungi, Mosses before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Flower Arranger's Encyclopedia of Preserving and Drying: Flowers, Foliage, Seedheads, Grasses, Cones, Lichens, Ferns, Fungi, Mosses:

0 of 0 people found the following review helpful. InspirationBy Alaina L. PocockLove this book. Its a great inspiration for creating beautiful arrangements for my ribbon embroidery projects. I purchased this book for it information regarding drying various flowers, pine cones, etc. and it certainly fills that bill. The embroidery ideas are just a great extra.

Shows how to make long-lasting flower arrangements with 250 popular flowers, foliage, flowering grasses, fruits and non-flowering plants. The author gives instructions in each case for the best method to use in order to preserve the beauty and form of the flower or plant material.

From Booklist Foster's practical guide to drying flowers offers concise instructions in a convenient alphabetical format. Featuring a wide range of plant material, it will be a useful reference and one that easily provides both quick access and capable answers as to whether or not specific plants are good specimens for preserving. With detailed advice, a color portfolio of flower arrangements, and handsome black-and-white illustrations, Foster's authoritative effort incorporates an in-depth approach that sets it apart from many manuals of this type.
