Paul Levitz : The Little Book of Wonder Woman (English, French and German Edition) before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Little Book of Wonder Woman (English, French and German Edition):

0 of 0 people found the following review helpful. Five Stars By Steve L. Shedd These are fun!
0 of 0 people found the following review helpful. Beautiful By April Tuesdays This little beauty is packed with information about WW comics
1 of 1 people found the following review helpful. The Little Book That Could By Andrs Rodrguez A general overview of the history of Wonder Woman comics, from its Golden Age origins to the Modern Age (up to 2010). As a starting point for people who want to have a general idea about the evolution of her character it serves its purpose, providing dozens (if not hundreds) of pictures of covers and comic strips, with a few tidbits of information here and

there. Unfortunately, the book does suffer from its form, as its size makes reading the comic strips and the information provided a bit of a strain on the eyes. Furthermore, it could have benefited from a short summary to introduce the readers to the different ages and highlight some of the more radical changes from one age to the next. Still, at its current price of \$5 on I can hardly find a reason not to have this little book in your library.

The Amazing Amazon: The spirit of truth in the DC Universe

About the Author Paul Levitz is a comic book fan who has worked as editor/publisher of The Comic Reader, editor of the Batman titles and others, writer of more than 300 stories including an acclaimed run on Legion of Super-Heroes and a DC Comics executive, finishing his 38-year stint with the company as President and Publisher. He returned to writing in 2010 with a new series of Legion stories and other projects.
